Bilingual

FOUENANG MIGUEL BRUCE

ENGINEERING STUDENT

Fourth-year engineering student combining strong theoretical foundations with practical expertise in networking, systems administration, and full-stack development. Passionate about building resilient infrastructure, efficient automation solutions, and virtualization technologies.

COMPETENCIES

DEVELOPMENT

HTML

CSS

JavaScript

Flask

SYSTEM & OPS

Linux

Bash

Git

NETWORKING

Routing & Switching (Cisco), VLAN/Inter-VLAN, Subnetting, NAT, ACLs, GNS3 Simulation, Packet Tracer.

VIRTUALIZATION & LABS

VirtualBox

Virt-Manager

VMware

KVM/QEMU

PORTFOLIO

Flask SaaS App

Web

Built authentication, user roles, and dashboards using HTML, CSS, and Flask.

Network Infrastructure

Net

Enterprise design with VLANs, Firewalls, and SNMP.

Alpine Linux Cloud

Virtualization

Deployed lightweight cloud env using VirtualBox and Virt-Manager.

Bash Automation

Scripting

Developed scripts to automate routine system tasks.
